The first of these is the

The first of these is the
fact that the world is
not a flat surface but a
sphere. This is a fact which
has been known for
centuries. It is a fact which
has been proved by
many different methods.
One of the most obvious
proofs is the fact that
the sun sets and rises
in different parts of the
sky at different times of
the year. This is a fact
which can only be explained
if the earth is a sphere.

The second of these is the
fact that the world is not
a uniform surface but a
surface of varying
heights and depths. This
is a fact which has been
known for centuries. It
is a fact which has been
proved by many different
methods. One of the most
obvious proofs is the fact
that the sea level is not
the same everywhere. It
is higher in some places
and lower in others. This
is a fact which can only
be explained if the earth
is a surface of varying
heights and depths.

The first of these is the
 fact that the
 government has
 been unable to
 raise the necessary
 funds to meet
 its obligations
 and that it has
 been forced to
 resort to the
 printing press
 to finance its
 operations.

This has led to a
 rapid increase
 in the money
 supply and a
 consequent
 inflation of
 the currency.
 The result has
 been a sharp
 decline in the
 value of the
 dollar and a
 corresponding
 increase in the
 price level.

July 18th 1864

Dear Mother

I received your letter of the 15th

and was glad to hear from you

and to hear that you were all well

and that you were all happy

I am well and hope these few lines

will find you all the same

I have not much news to write

at present but I will write again

when I have more news to tell

I love you all very much
