世物不常，天運不恒，
處事者不可不知也。
國之興衰，繫於人心，
此理之明也。君子之
處世，當先修其身，
然後求其功。夫德
者，本也；財者，末也。
外本而內末，則民不
可與處。夫德者，
所以服人者也。德
衰則人叛，人叛則
國亡。故君子必先
慎乎德。德有餘則
財用不乏，財用不
乏則民志不惑，民
志不惑則國家無
難。此理之明也。

1888-1889

1889-1890

The first thing I did was to go to the
 bank and get some money out of my
 account. I had to go to the bank
 because I had no money left in my
 pocket. I had to go to the bank
 because I had no money left in my
 pocket.

I had to go to the bank
 because I had no money left in my
 pocket.

I had to go to the bank
 because I had no money left in my
 pocket. I had to go to the bank
 because I had no money left in my
 pocket.

I had to go to the bank
 because I had no money left in my
 pocket. I had to go to the bank
 because I had no money left in my
 pocket.

I had to go to the bank
 because I had no money left in my
 pocket. I had to go to the bank
 because I had no money left in my
 pocket.

I had to go to the bank
 because I had no money left in my
 pocket. I had to go to the bank
 because I had no money left in my
 pocket.

1. The first part of the paper is devoted to a
discussion of the various methods of
the present day. It is shown that the
method of least squares is the most
accurate and reliable. It is also shown
that the method of moments is the
most convenient and easiest to use.
The paper concludes with a summary
of the results and a list of references.

In the second part of the paper the
author discusses the various methods
of the present day. It is shown that
the method of least squares is the
most accurate and reliable. It is also
shown that the method of moments
is the most convenient and easiest to
use. The paper concludes with a
summary of the results and a list of
references.

1. Die erste Aufgabe ist die Bestimmung der

Werte von x und y .

2. Die zweite Aufgabe ist die Bestimmung der

Werte von x und y für die gegebenen

Werte von x und y .

3. Die dritte Aufgabe

ist die Bestimmung

der Werte von x und y für die gegebenen

Werte von x und y .

1872

1. Die erste Aufgabe ist die Bestimmung der

Werte von x und y für die gegebenen

Werte von x und y .

2. Die zweite Aufgabe ist die Bestimmung der

Werte von x und y für die gegebenen

Werte von x und y .

3. Die dritte Aufgabe

ist die Bestimmung der Werte von x und y für

die gegebenen Werte von x und y .

The first part of the book is devoted to a general
 introduction of the subject, and to a description of the
 various kinds of plants which are found in the
 different parts of the world. The author then
 proceeds to a detailed description of the
 various kinds of plants which are found in the
 different parts of the world.

The second part of the book is devoted to a
 description of the various kinds of plants which
 are found in the different parts of the world.
 The author then proceeds to a detailed
 description of the various kinds of plants
 which are found in the different parts of the
 world.

The third part of the book is devoted to a
 description of the various kinds of plants which
 are found in the different parts of the world.
 The author then proceeds to a detailed
 description of the various kinds of plants
 which are found in the different parts of the
 world. The fourth part of the book is devoted
 to a description of the various kinds of plants
 which are found in the different parts of the
 world. The fifth part of the book is devoted
 to a description of the various kinds of plants
 which are found in the different parts of the
 world.

— 100 —

1. Die erste Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt.

2. Die zweite Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in der ersten Gruppe nicht vorkommen.

— 101 —

3. Die dritte Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in den beiden ersten Gruppen nicht vorkommen.

4. Die vierte Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in den drei ersten Gruppen nicht vorkommen.

5. Die fünfte Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in den vier ersten Gruppen nicht vorkommen.

6. Die sechste Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in den fünf ersten Gruppen nicht vorkommen.

7. Die siebente Gruppe ist diejenige, die sich aus den
einzelnen Gliedern der Reihe zusammensetzt, die
in den sechs ersten Gruppen nicht vorkommen.
