The first of these is the fact that the  
population of the world is increasing  
at a rapid rate. This is due to a  
number of factors, including improved  
medical care, increased food production,  
and a decline in the death rate. The  
second factor is the fact that the  
world's resources are being used up  
at an alarming rate. This is due to  
the fact that the world's population is  
increasing so rapidly that the demand  
for resources is increasing faster than  
the supply can keep up with.

19  
The third factor is the fact that the  
world's climate is changing. This is  
due to the fact that the world's  
population is increasing so rapidly  
that the demand for resources is  
increasing faster than the supply can  
keep up with. The fourth factor is  
the fact that the world's environment  
is being polluted. This is due to the  
fact that the world's population is  
increasing so rapidly that the demand  
for resources is increasing faster than  
the supply can keep up with.

Das ist die erste Art der Arbeit, die man  
zu machen hat, wenn man die  
Welt verstehen will. Man muss  
sich zuerst mit den Grundlagen  
des Lebens beschäftigen. Das  
bedeutet, dass man die  
Natur der Dinge und die  
Gesetze der Welt kennen  
muss. Nur so kann man  
die Wahrheit erkennen und  
sich selbst erheben.

Die zweite Art der Arbeit ist die  
Suche nach dem Sinn des  
Lebens. Man muss sich fragen,  
was das Ziel des Lebens ist und  
wie man es erreichen kann.  
Das erfordert eine tiefe  
Reflexion und eine  
starke geistige Kraft. Nur  
so kann man die  
Wahrheit des Lebens  
erkennen und sich  
selbst erheben.

1. The first part of the book is a history of the  
country from the time of the first settlement  
to the present day.

### CHAPTER I

THE FIRST SETTLEMENT

The first settlement was made in the year  
1607, by a party of Englishmen, who  
were sent out by the Virginia Company  
to establish a colony in the New World.

The first year was a very hard one for  
the settlers, as they had no food or  
clothing, and were exposed to the  
elements. However, they managed to  
survive, and in the second year  
they began to plant crops, and to  
build houses. By the end of the  
third year, the colony had become  
more established, and the settlers  
were beginning to feel that they  
had found a new home.
