1. The first part of the document
 discusses the general principles
 of the system and its objectives.
 It outlines the scope of the
 project and the roles of the
 various participants involved.
 The second part of the document
 provides a detailed description
 of the system's architecture
 and the components that make
 up the system. This includes
 a discussion of the hardware
 and software requirements, as
 well as the data flow and the
 control logic of the system.
 The third part of the document
 describes the implementation
 of the system, including the
 development of the software
 and the installation of the
 hardware. It also discusses the
 testing and validation of the
 system, and the results of the
 tests. Finally, the document
 concludes with a summary of the
 findings and a list of references.
