The first thing I noticed when I
 stepped out of the plane was the
 fresh air. It felt like a warm
 blanket after a long winter.
 The sun was shining brightly,
 and the birds were chirping
 happily. It was a beautiful
 sight. I had never seen
 anything like this before.

The second thing I noticed was
 the smell. It was a mix of
 fresh air and the scent of
 the earth. It was a comforting
 smell. I had never smelled
 anything like this before.

The third thing I noticed was
 the sound. It was a mix of
 the wind and the sound of
 the trees. It was a soothing
 sound. I had never heard
 anything like this before.

The first of these is the fact that the
 majority of the population are
 engaged in agriculture. This is
 due to the fact that the land is
 fertile and the climate is
 suitable for the growth of
 crops. The second is the fact
 that the population is increasing
 rapidly. This is due to the fact
 that the death rate is falling
 and the birth rate is rising.

The third is the fact that the
 population is becoming more
 educated. This is due to the fact
 that the government is spending
 more money on education. The
 fourth is the fact that the
 population is becoming more
 urban. This is due to the fact
 that the government is building
 more cities and towns.
